

OKIMATE 10 -- THE PERSONAL COLOR PRINTER

LETTERS, REPORTS, TERM PAPERS

Better than a typewriter! OKIMATE prints 60 characters per second, 240 words per minute--about the same as four fast typists. OKIMATE prints on computer paper (so there is no need to stop between pages) and on single sheets of paper. Since OKIMATE works with word processor programs, changes and corrections can be made on the computer screen instead of on paper. **WIDE PRINT.** **BOLD PRINT.** **FINE PRINT.**
